## SLUGGED AND ROBBED

Store Keeper Near Tennessee Line Murderously Assaulted and May Die.

Robbers made a murderous attack on Luke Bagby, who runs a country store near the Montgomery line, below Howell, Monday night, and after disabling him robbed the store.

Mr. Bagby was hit on the head with a heavy stick and his skull fractured. He was found lying unconscious on the floor by a negro, who was sent to the store from his house near by. He was taken home and surgical attention given. His condition was found to be very critical and his recovery is still a question of grave doubt.

The robbers got \$60 or more from the cash drawer, leaving some checks. Mr. Bagby is about 55 years of age. He had not regained consciousness at last accounts and no further details are known.

Yesterday morning Sheriff Smith arrested Joe alias Top White and Will White, negroes, and lodged them in jail on suspicion. During one of his semi-rational moments Mr. Bagby was heard to mutter "Don't Joe, don't George." This had caused suspicion to rest on Joe White and he was taken into custody. Another negro is under suspicion but has not been caught.

## STANLEY'S WONDERFUL ENERGY.

For upwards of two years Mr. Stanley has been on the go. How many men could retain a voice and physical strength to go through the strenuous campaign that he has gone through? Not one in thousands. This shows to the hard working man who has to labor day in and day out to support a large family that Owsley Stanley never shirks work. He has always been a man of iron. He never plays, but enjoyment comes to him when he is toiling away for the cause of the bravery of labor. Remember this ye voters, and do not forget that the democratic candidate for governor can live with or without kid gloves.

## GRIM REAPER MAKES CALL

Mrs. Lucian M. Passes Away After Protracted Illness.

## FUNERAL SERVICES TODAY

Will Be Conducted At The Family Residence on Fifteenth Street.

Mrs. Mattie McKnight Cayce, wife of Mr. Lucian M. Cayce, died Tuesday night from a complication of diseases. She was taken with typhoid fever several weeks ago and though her fever had abated, other troubles developed that made her case hopeless and her death had been expected for several days. In spite of all that medical skill could do and the assiduous attention of several nurses, she gradually grew worse and peacefully passed away.

She is survived by her devoted husband and a number of near relatives, including two brothers who live in distant states, Jno. M. McKnight, of McAlester, Okla., and Wm. A. McKnight, of Oak Creek, Colo., and one sister, Mrs. Will Bentley, of McAlester, Okla.

Mrs. Cayce was born Jan. 15, 1871, and was in the 45th year of her age. She was a lifelong member of the Christian church and was a consistent and consecrated christian, active in her church duties at all times.

The funeral services will be held this morning at the residence by Rev. J. N. Jessup and the interment will be in Riverside Cemetery.

The active pall-bearers will be Geo. D. Dalton, E. H. Hester, Dr. J. E. Oldham, Dr. A. H. Tunks, Gus K. Stephens and Geo. W. Crenshaw. The honorary pall-bearers will be L. H. Davis, W. R. Wicks, C. R. Clark, T. L. Morrow, Bailey Russell and W. A. Radford.

## FERD SCHMITT

Critically Ill From a Stroke of Paralysis.

Ferdinand Schmitt was paralyzed at his home on Seventh street, at an early hour Tuesday morning and his condition is very critical.

He aroused members of his family between 12 and 1 o'clock and was able to tell that he was helpless from a stroke that paralyzed his entire right side. Shortly afterwards he became speechless and during the day Tuesday lapsed into entire unconsciousness. Yesterday his condition was no better and he is in a very critical state, with but slight hope for improvement.

Mr. Schmitt is the oldest saloon man in the city, having been in the business for more than 30 years. He has many friends who will regret to learn of his severe illness.

## Double Tragedy.

Harrodsburg, Ky., Oct. 11.—As a sequel of the murder of M. H. Debaun, a prominent Cornishville druggist, who was instantly killed by a shot fired through his store window Saturday night. Samuel Sims, well-to-do Mercer county farmer, this afternoon died as the result of injuries believed to have been self-inflicted. Unfounded jealousy of his wife, it is said had burdened Sims' mind for some time and is blamed for the double tragedy.

## Second Defeat.

## CHICAGO AND MIAMI LINKED TOGETHER

Tourists Set Out From Chicago --Due to Reach Nashville Wednesday.

Chicago, Ill., Oct. 13.—Chicago was fanatically married to Miami, Fla., Saturday with a wedding band 1,500 miles long as the trinket that binds the pact. The great Dixie highway, which is to thread the states of the north and south together like strung popcorn, was formerly opened and twenty-two cars filled with tourists set out for the land of orange blossoms over the ceremonially virgin road.

Short exercises in Grant park, with a tableau representing the sisterhood of states brought together by the Dixie highway, preluded the departure of the tourists. Miss Marguerite West, as "Miss Chicago," greeted Miss Hazel Leight as "Miss Dixie." Little Julia Stubblefield, representing Florida, and Lucille Finnegan, representing Illinois, started a chain to join Chicago and Dixie.

In their turn appeared Georgia, represented by Frances Kirby; Tennessee, by Dorothy Ann Rice; Kentucky, by Mary Powell; Ohio, by Charlotte Wright; Indiana, by Betty Craig, and Michigan, by Josephine Sims. Gov. Dunne, of Illinois, gave A. B. Quinlan, of Miami, Fla., a message to Gov. Park Trammell, of that state. Other messages to be delivered at various towns, to various mayors, governors, etc., were entrusted by various persons to various messengers.

A person living along the Dixie highway will have to be politically insignificant if he doesn't draw at least one message of greeting from the little band of motoring pioneers. The motorists left Louisville at 7 a. m. yesterday and were due, in Nashville at 6 p. m.

Another batch of indictments was handed in by the grand jury Monday including the following:

Nelson McReynolds, col., grand larceny.  
John White, col., chicken stealing.  
Dewey Hammonds, carrying a concealed deadly weapon.  
Bob Pendleton, col., carrying a concealed deadly weapon. Tried on a plea of guilty and fine \$50, 10 days and disfranchised.

## Plenty of Chestnuts.

Whitesburg, Ky., Oct. 11.—Reports from points in the Stone, Black and Cumberland mountains east of here along and contiguous to the Kentucky-Virginia border say there is a bumper chestnut crop—the best in years, ripening in the mountains. Already many people are going into the mountains from the settlements to gather them. They are selling for from \$1.25 to \$1.50 a bushel.

## BIGGEST SLIDE IN HISTORY

Hundred and Seventy-Five Acres Slipping Into The Panama Canal.

## CANAL CLOSED FOR THE YEAR

Estimated That It Will Take Ten Months to Remove The Mass of Earth In Motion.

Panama, Oct. 13.—A careful survey of the slide area in the Gaillard cut reveals the fact that there probably are 10,000,000 cubic yards of earth in motion, which must be taken out by dredging before a permanent channel is possible. This is the conclusion reached by the canal engineers, who conceded there now is little hope of opening the waterway, even for the temporary use of shipping, much before the first of the year.

The present rate of wet excavation is a million yards a month and at this rate it would require not less than 10 months to remove the mass now sliding into the canal considerably faster than the dredges can take it out.

It is said that often the canal bottom bulges up to a height of 15 feet above the surface of the water, due to the tremendous weight of the hillsides.

The area of motion is roughly calculated to be in the neighborhood of 175 acres, which constitute the greatest slide area in the history of the canal. It extends 2,500 feet along both banks of the waterway, with probably an average of 1,500 feet back of the center line of the canal prism.

Gov. Goethals of the canal zone has made no official announcement concerning the probability of opening a temporary channel, but it is believed shipping interest have been given to understand the nature of the situation and it is probable that of the 100 ships here ordered passage will be ordered to their destination by other routes.

## C. H. COFFMAN

City Assessor Died Tuesday Night of Tuberculosis.

C. Herschel Coffman, city assessor of Hopkinsville for the last two years, died Tuesday night at his home at 827 Central avenue, of tuberculosis, from which he had been a sufferer for some time.

Mr. Coffman was engaged in the insurance business and came here several years ago from Hanson, Ky., to which place his body will be taken for interment this morning.

Mr. Coffman was about 35 years of age and is survived by a wife and one little boy.

## Son of Kipling.

London, Oct. 13.—Rudyard Kipling has received no further news of his son who was wounded and reported missing in the north of France. He was only slightly wounded when last seen and his parents are hopeful that he suffered no more serious fate than being taken prisoner inside the German lines. Mr. Kipling sent the Associated Press today the following message:

"I should be obliged if you would make public in America the fact that up to date my son, John, is reported wounded and missing, not wounded and believed killed, as stated in the press a few days ago."

John Kipling of the Irish guards, only son of Mr. Kipling, was 18 years old when he entered the British army.

## PASTOR ENDORSES

Work of The Associated Charities--Meeting Thursday Evening.

One of the most creditable organizations of the city, one which reflects more honor to Hopkinsville apart from the churches, than any other, is the Associated Charities. Through this organization our little city administers a beautiful benevolence, and does it in a scientific way.

The thing itself—helping the poor, and the way it is done should appeal to everybody. For this work should elicit the practical support of every man, woman and child in our city who is able to help "bear one another's burdens."

On Thursday evening next, at the Westminster Presbyterian church, at 7:30 o'clock the Associated Charities will hold their annual meeting and receive reports and elect officers for the ensuing year. Miss Pauline Witherspoon, of the Detention Home of Louisville, Ky., a noted social worker, will address the organization, and the public as well as all the supporters of the Associated Charities is cordially invited to this meeting.

I take very great pleasure in recommending this organization and its splendid work to the entire citizenship of Hopkinsville and bespeak for it intelligent, liberal and persistent support; and an attendance upon the annual meeting on Thursday night will justify this representation and recommendation.

## LEWIS POWELL,

## BRAVE SERBS HARD PRESSED

Whole Allied Cause Said to Be in Most Dangerous Situation.

## BULGARS ON THEIR FLANK

Anglo-French Force Being Landed in Saloniki---Italy to Keep Out of Balkans.

London, Oct. 13.—Serbia is being attacked from the north and the east. The Austro-Germans, after their capture of Belgrade and Semendria, are advancing southward, while the Bulgarians are trying to interrupt communications north and south of Nish, Serbia's war-time capital, and to attack the Serbs on the flank if they are driven back by the German field marshal, von Mackensen.

The situation is admitted to be serious, not only for Serbia, but for the whole allied cause. It is asserted that the Serbians are inflicting heavy losses both on the Austro-Germans and Bulgarians, but with their army of about a quarter of a million men, they are believed to have little chance of making any prolonged resistance against 300,000 or 400,000 Austro-Germans and probably 200,000 Bulgarians. They are arranging for the transfer of the capital to Monastir, in the extreme southwestern corner of the kingdom.

Greece apparently has decided to ignore the treaty under which she is supposed to go to the assistance of her Serbian ally in case of an attack. Premier Zaimis said when notified of the Bulgarian attack that Greece "remains in a position of armed neutrality."

The quadruple entente has decided to take energetic action. As soon as news of the Bulgarian attack on Serbia was received in London the Bulgarian minister was handed his passports, and M. Viviani, the French prime minister, in the chamber of deputies yesterday declared that France, Great Britain and Russia had decided to take joint action and that today "Russian troops will be fighting by the side of ours."

It is understood that Italy has decided not to co-operate with the allies in the Balkans, the Italian government believing that troops cannot be spared for any campaign other than that in Trentino and Triest. The Russians seemingly have entirely regained the initiative, especially in Galicia. Here Petrograd reports the Russians have won a victory in the river Stripa. The territory on which this battle was fought marks the extreme left of the Russian battle line.

## METHODIST RALLY DAY

Will Be Observed Next Sunday With Unique Program.

The annual Rally Day service of the Methodist Sunday school will be held next Sunday morning at 9:30 o'clock. An especially unique and interesting program is being arranged for this observance and it is hoped that the church membership will heed the call and attend, so that all previous records for numbers present may be broken.

There will be one other paramount feature of this service, and that is the opportunity that will be given for contributions to the new church now being built. Persons who have pledged money can pay it at this service and receive credit for it just the same, and all additional new donations will be most thankfully received. It is hoped that a handsome sum will be paid in at this service.

Everybody is urged to bear this service in mind and be present and come prepared to help on the new church.

has been, under the war influence,  
advanced to \$1 an ounce. The story

Kentucky, put quinine on the free

## WITH ONE GREAT COMPOSER

Handel Belonged to No School, Yet  
Had Style His Own—Scolded  
Prince of Wales When Late.

German by birth, an Italian by sym-  
pathy and training, an Englishman by  
residence and conformity, Handel be-  
longed to no school, yet had a style  
as unmistakably his own as had Dante  
in verse, Angelo in sculpture or  
Raphael in painting.

Strong, egotistic, self-willed, the  
great composer was generally cheer-  
ful and good-tempered, but violent  
when irritated, and indomitably proud  
and independent.

One who knew him well relates that  
when he was pleased with the way the  
music was going at one of his con-  
certs, his enormous wig had always a  
certain nod or vibration, and that at  
the Carlton house concerts he would  
swear angrily if the ladies in waiting  
talked during the music—upon which  
the princess would check them, say-  
ing, "Hush! Hush! Handel is angry."

He did not hesitate even to scold  
the prince of Wales for being late at  
a concert and "keeping all these poor  
people (the performers) so long from  
their scholars and other concerns."

## MUCH PATIENCE IS REQUIRED

Do Not Get Discouraged in Attempt-  
ing to Revive Apparently Drowned  
Person if Results Are Slow.

Any treatment of the apparently  
drowned, to be thorough, must take  
into consideration, first, clearing the  
mouth and nostrils of phlegm and  
mucus; second, the expulsion of poi-  
sonous gases from the lungs; third,  
the replacing of the expelled gases by  
pure oxygenated air; fourth, the stim-  
ulating of the respiratory organs so  
that they may assume their regular  
functions; fifth, the restoring of its  
normal temperature to the body.

Above all do not allow yourself to  
become discouraged if your efforts for  
resuscitation are not prompt in result,  
says Outing. One might cite dozens of  
cases reported by absolutely reliable  
medical journals to prove that life  
does not become extinct nearly so  
soon as is generally believed. Men  
and women, apparently drowned,  
dragged from the water after thirty or  
forty minutes of submersion, have  
been saved. Again, operators have  
worked artificial respiration for as  
long as four hours without a sign of  
recovery, and then seen their noble  
persistence rewarded by the revival of  
the patient.

Never despair, therefore. A human  
life is at stake. Don't give up until  
the last ray of hope is lost. Keep at it  
and you'll find that success will usu-  
ally crown your efforts.

The Schaefer or prone pressure  
method is now accepted the world over

## OFFICIAL PUBLICATION.

Pursuant to law the following of-  
ficial publication is made of the or-  
der in which the names of the candi-  
dates for Commissioners in the City  
of Hopkinsville will appear upon the  
official ballot for the primary elec-  
tion to be held Saturday, October 16,  
1915, between the hours of 6 a. m.  
and 4 p. m., at the seven regular  
voting places in said city. The or-  
der here given is for the first 50 bal-  
lots. The second 50 will have the  
first name placed last in the list and  
a similar change will be made nine  
times, each lot of 50 having a differ-  
ent name at the top until all have  
alternated. After 450 ballots have  
been thus printed the same order of  
rotation will be followed in subse-  
quent lots of 450 until enough bal-  
lots have been printed.

Important Point Overlooked.  
One day a crowd of little children  
were invited to a party to be held  
from three till five. About five min-  
utes of five Mary got up and going  
over to her little host, Johnnie, said:  
"Why Johnnie, it is pretty near five  
o'clock and you haven't given us any-  
thing to eat yet."

### GRONCH'S STEAK WAS TOUGH

However, Restaurant Keeper Knew How to Handle Customer With Kick—Sharp Knife Lacking.

It happened in a downtown restaurant, says the Columbus (O.) Dispatch. A well-dressed—as he always must be to make a good story—young man ordered a steak. The waitress, rather pretty—which qualification she must possess in writing a story of this kind—filled the order and the young man started in to devour the feast which had been set before him.

The young man had no sooner started in on the steak than he discovered that he had a kick coming, and as the restaurant proprietor passed he stopped him by saying: "I can't eat this steak. Entirely too tough. I wish you would see that I get better meats when I come in here."

"Too bad! That steak looks all right. But let me get you another!" and the aforesaid proprietor took the steak, the silverware which had been served with it and departed. He soon returned with a steak which looked exactly like the first one. The young man picked up his knife and started at his second order. "Fine!" he said, as his knife cut it apart without the least effort. The customer was pleased beyond words and that he enjoyed the steak was evident, for he left only the plate.

As the reporter passed out he met the proprietor again, and this is what he said:

"That steak was all right, but the girl made a mistake in not giving him a sharper knife. All I did was to put the same steak on another plate and bring him a sharp knife. You have no idea what a difference a sharp knife makes with a steak from a beef of questionable age."

### THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

There never has been a time when a newspaper was more needed in the household. The great war in Europe has now entered its second year, with no promise of an end for a long time. These are world-shaking events, in which the United States, willing or unwilling, has been compelled to take a part. No intelligent person can ignore such issues.

The Presidential contest also will soon be at hand. Already candidates for the nomination are in the field, and the campaign, owing to the extraordinary character of the times, will be of supreme interest. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week edition of the New York World.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Hopkinsville Kentuckian to you for \$2.65. The regular subscription price of the two papers is \$3.00.

### Morrow Balked.

At Hindman, Mr. Sanley said "Mr. Morrow's treatment of the voters of Hindman and his conduct at Prestonsburg abundantly establish the fact that he is not going to put himself to any physical inconvenience to hear the laughter of your children or to read any mottoes over your doors if he has to ride a mule of tackle a rough road to do it. He was balked, as I understand, to speak at Hindman, but when he got off the train at Prestonsburg he was told that to reach this place he would be compelled to ride sixteen miles on horseback. The news nearly broke his manly heart. He threw up those dainty little hands, by which Wilson was wont to lead him into the love of the poor and the humble, and an expression of pain and horror flitted over his sweet and comely face.

"Ride to Hindman," said Morrow, "why I would have to ride a mule to get there and that would put me out of business for the rest of the campaign!"

"So he canceled his appointment and you did not hear his sweet voice or enjoy his warbled eloquence. I cannot understand Mr. Morrow's objection to riding a mule. Any man who has ridden Franks as long as he has ought to feel at home on a mule. The only difference between Franks and a mule is, that the mule is bigger and has more horse sense. The cross gives him that. I take no count of a slight inconvenience in riding a mule only sixteen miles and over a fair road, to have the pleasure of looking into the faces of the sturdy Democracy of Knott county that does not know how to scratch a ballot and has never failed or faltered in its devotion to Democracy."

### Are You a Woman?

Baltimore, Md.—Mrs. W. H. Isor, at 1419 East Madison street, writes: "For several years, I suffered, off and on, from female troubles, until finally I was taken down and could do nothing. The pains I experienced, I shall never forget. I lost weight till I was only skin and bones. I believe I would have been in my grave, if I had not tried Cardui. I shall praise it as long as I live." Many women, like Mrs. Isor, are weak and discouraged, on account of some painful ailment. Are you one of these sufferers? Cardui will help you. Try it today. Any druggist.—Advertisement.

### STRANGE ANIMALS OF PREHISTORIC TIMES

North Platte River generally carries a considerable volume of water, while the South Platte is dry except during times of floods, because its water is used for irrigation farther upstream. The North Platte is 650 miles long and drains about 28,500 square miles. At the city of North Platte the river has a maximum discharge, according to the United States Geological Survey, of about 20,000 cubic feet a second and a minimum discharge of only 70 cubic feet a second. Its average volume of flow during the nine months from March to November is about 3,500 cubic feet a second.

From Dexter to Ogallala, Nebr., South Platte River and the railroad are close to the bluffs bordering a table land. Here and at other places where the bluffs come close to the river many travelers in the days of the Overland Trail suffered from attacks by Indians and white outlaws, who were wont to swoop down unexpectedly from their hiding places in the hills to murder and plunder. It is difficult for the modern traveler surrounded by the luxuries of the railway train to realize the hardships and dangers endured by the men and women of indomitable courage and energy who under such conditions invaded and finally conquered the West.

The fossils found in the Ogallala and Arikaree formations show that western Nebraska was inhabited in what the geologist terms late Miocene time by animals of very different types of those living there now, and also that very different physical conditions prevailed at that time. In place of dry, barren plains of today there were numerous streams and lowlands.

### Horses With Huge Claws.

The Arikaree formation contains great numbers of bones of a peculiar type of animals called chalicotheres. They were larger than a large horse and had a horse-like head, long front legs, and shorter hind legs, but every foot had three toes, each of which in place of a hoof bore an enormous claw. An equally strange form of Miocene time is a deerlike animal called Syndyoceras. Its head somewhat resembled that of an antelope but was longer with four horns, the larger pair, over the eyes, curving inward and the smaller pair, nearer the muzzle, curving outward. Camels were common in North America during the Miocene epoch, and several forms have been found. One was about the size of a sheep and is supposed to be the ancestor of modern camels and llamas. Others were large and had long necks like the giraffe. All these ancient camels had hoofs like cattle, not broad cushioned feet like those of the camels of the present day. Rhinoceroses were abundant, and hundreds of specimens of Teleoceras, a very heavy-bodied, short-limbed type, have been found. The proboscideans, of which the elephant is the best-known type and the only living representative, became prominent during the Miocene epoch, when a large mastodon called Trilophodon was common.—(Overland Guidebook, U. S. Geological Survey.)

### Children Cry FOR FLETCHER'S CASTORIA

Worth While Quotation.

Whenever you are angry or feel like grumbling or pouting—whenever you are gloomy, fretful or morose—you are consuming your energy, wasting your vitality and opening the sluiceways in your mental reservoir instead of sending the power over the wheel to drive the mental machinery.—Selected.

### CUTTING CORN FOR THE SILO

Wait Until Kernels Are Glazed or Dented—If Thought Too Dry Water May Be Added.

There is considerable of the nutrient material lost in cutting silage corn too early. Corn should not be cut for this purpose until the kernels are nearly all glazed or dented. At this stage it will usually be noted that the lower blades are brown and dry. If it is thought that the corn is a little too mature, water can be added.

Experiments have shown that corn stover (dry stalks without the ears) can be ensiled if an equal weight of water is added as the stover is being cut. The silage should be well tramped as the silo is being filled, especially so around the walls. This is done to exclude as much air as possible. For the average man, the steam engine is easier to run than is a gasoline engine, and not as many delays will be made in filling the silo. Where a number of men and teams are employed, a stop of even a few minutes is costly. After the filling of a silo is completed, it is a good idea to wet the top down thoroughly, after which it should be tramped once a day for a week or ten days. This procedure will save several tons of otherwise spoiled silage.

### BAR FOREIGN NURSERY STOCK

Government Order Prohibits Importation of Living or Growing Plants, Seed and Products.

All nursery stock received in the mails from abroad must be returned to the point of origin immediately, according to a recent order. This action was taken for the reason that importers have endeavored to withhold the return of such shipments until they could communicate with the department of agriculture with a view of having an exception made in some particular case.

"Nursery stock," which is prohibited from entering this country by mail, includes all growing or living plants, seeds, and other plant products, for propagation, except field, vegetable, and flower seeds. It includes also bulbs, roots, and tubers, and, with the exceptions noted, the seeds of all trees, shrubs, or other plants. The only plants or plant products excepted from the prohibition are those ordered by or intended for and addressed to the "Office of Foreign Seed and Plant Introduction, United States Department of Agriculture, Washington, D. C."

### GRANARY AND SCALE HOUSE

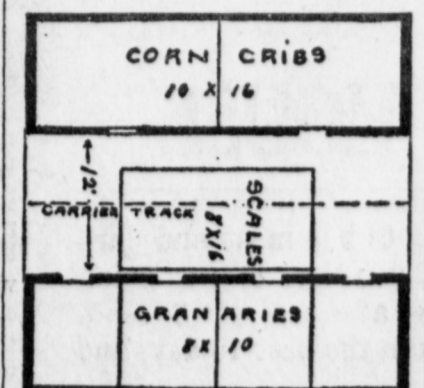

Loose Grain May Be Dumped From Wagon Into Bin or Crib Desired—Cost Is Not Great.

(By J. C. SHAWVER.)  
A convenient granary is 32x32x14 feet to the eaves. By using a sling carrier it is very easy to raise a wagon bed of loose grain and turn it around and dump it in any bin or crib desired and the scale makes it possible to know the exact amount of grain handled.

This is also a help to the farmer selling stock, for by using four gates hooked together he readily has stock scales.

The floor of the granary should be concrete with a thin coat of cement, also a low wall of the same and then plank frame above.

Anyone desiring to make it handier about loading a wagon can do so by raising the floor up to about four feet

Scales and Grain Houses.

and this provides good feeding pens for hogs or sheep or even small calves.

The cost of construction is about \$200.

### FRESH EGGS ARE VALUABLE

Save Plan to Market Only Those Taken From Regular Nests—Store in Cool, Dry Place.

(By J. G. HALPIN, Wisconsin Experiment Station.)

To have the eggs fresh market only eggs that are gathered from regular nests. Usable eggs now may not be usable by the time they reach the city market, and all eggs of this sort should be kept at home and used at once. Do not hurt the sale of your good eggs by including eggs gathered from stolen nests, extra small or extra large eggs. The latter are likely to get broken and soil the good eggs in the case. Gather eggs daily, and as soon as possible after they are laid; store in a clean, dry, cool place, free from bad odors, until ready for market.

### Renew Strawberry Bed.

The old strawberry bed may be renewed by mowing the foliage, raking it off or burning it quickly on the bed, then hoeing out or plowing all but a strip about one foot wide, and letting the new plants take the ground.

## Why's "Gets-It," for Corns, Like a Kiss?

Because Everybody Tries It, Every-  
body Likes It, It's Painless and  
Takes But a Moment  
to Apply.

"Gets-It" is the wonder of the corn-  
pestered world. Millions say so, be-  
cause millions have used it. That's  
what makes it the biggest selling

"Never in My Life Saw Anything Act So  
Quickly and Magically as 'Gets-It'".  
corn remedy on earth today. "Gets-It"  
will surely get that corn or callus  
you've been trying for a long time  
to get rid of.—take it right off "clean  
as a whistle." Apply it in 2 seconds,  
—put your stocking and shoe right  
over it—nothing to stick, nothing to  
hurt. You needn't fuss with thick  
bandages that make a package out  
of your toe. No knives, razors and set-  
sore, no tape, no trouble. It's simplicity  
itself, sure, quick, painless. Try it also  
for bunions and warts.

## CHINESE DEMAND RETURN TO MONARCHY

President Yuan Shi Kai Re-  
ceived Letters From all  
Sections of Country.

Pekin, Oct. 13.—In a mandate dat-  
ed October 10, and issued last night,  
President Yuan Shi Kai acknowl-  
edges the receipt from all the prov-  
inces of the Chinese republic of peti-  
tions urging a restoration of the  
monarchy. He states emphatically  
that the will of the people must  
solve the question of a change in the  
form of government and that any  
change must be in accordance with  
the constitutional compact.

## Kentuckian's Tragic End.

Joe Cecil of Owensboro, Ky., who  
shot and painfully wounded Thelma  
Depoma of 610 Sixth avenue, north,  
in her room, and then attempted to  
take his own life by firing a bullet  
into his breast, was reported at the  
city hospital at an early hour Tues-  
day morning as still lingering be-  
tween life and death. Little hope is  
had for his recovery.

Cecil is from a prominent Ken-  
tucky family and has a mother liv-  
ing at R. F. D. No. 7, Owensboro.  
Word has been sent the young man's  
family, and relatives are expected.—

## Victim of Tuberculosis.

The wife of Horace D. Slatter,  
colored, well known throughout the  
South as a newspaper correspondent,  
died Monday, after an illness of two  
years. Slatter and his wife were  
residents here and are among the  
leading people of their race. The  
wife's death was caused by tubercu-  
losis, and the husband is also suffer-  
ing with the disease.

## Brothers Slain.

Henry and Jim Mills, brothers,  
were slain in a feud fight in the  
Brown creek section of Knox coun-  
ty. The shooting is said to have  
been the result of a grudge between  
the Mills, Brown and Baker families.  
Officers have gone to the scene.

# SPECIAL FITTING

OF

## GOSSARD CORSETS

Friday and Saturday,  
OCTOBER 15th and 16th

Through a special arrangement with The H. W.  
Gossard Company, of Chicago, we have engaged

MISS EDWINA MYERS,

of their organization to assist our corsetieres in  
a special demonstration of Gossard Corsets.

The radical change in styles this season

from the slinker slouch to the erect, well-poised, somewhat military form, calls  
for considerable care and attention in the fitting of your new corset.

There is a decided tendency toward the adoption of a smaller waist this  
season and a fitted bodice, with a return to the full skirt of former periods. All  
of this has a direct bearing on your corset. Authentic information regarding  
these new styles is yours for the asking during this demonstration.

You can come and be fitted to any of the newer models and make your  
selection at a later date, if you so desire. Whether you expect to purchase  
your corset at this time or not, we suggest that you arrange to attend this  
demonstration.

While the original front-lacing Gossard Corsets sold at \$25 some ten  
years ago, increased manufacturing facilities and an international distribution  
have reduced the price until now you can purchase a Gossard Corset for as  
little as \$6.50, \$5.00 and \$3.50.

It will be a privilege to serve you and to have you visit our Corset De-  
partment sometime during this demonstration.

## Capt. Chapman.

Arthur G. Chapman, who is the  
head of the local insurance agency  
of that name, has been appointed  
special agent in Kentucky for the  
Home of New York and the Frank-  
lin Fire, in which the Home recently  
purchased the controlling interest.  
Mr. Chapman, who came to Louis-  
ville from Hopkinsville two years  
ago, and has made a big success  
of the business, has been doing some  
field work for the Franklin recently,  
and did it so well that the perma-  
nent appointment to represent both  
companies followed. He will con-  
tinue in the local agency business, in  
which he is associated with his  
brother, Grover G. Chapman.—

## Watching Nut Stealers.

Owners of pecan and hickory nut  
orchards near the mouth of Green  
river, have organized for the pur-  
pose of prosecuting trespassers, who  
annually go upon their property and  
carry away nuts.

Two special Deputy Sheriffs have  
been sworn in to patrol the woods  
and arrest all persons found tres-  
passing on lands without permission  
of owners. The special deputies are  
being paid by owners, who are de-  
termined to stop the practice of per-  
sons stealing nuts every fall.

The finest pecan orchards in the  
South are located in that section  
along Green and Ohio rivers. This  
section, in past years, has been a  
mecca for nut hunters from this  
Henderson, Evansville and surround-  
ing territory.

#### Duruy's History of the World

Four splendid cloth volumes, full of portraits, sketches, maps, diagrams

Today is the climax of a hundred years of preparation. Read in this timely, authoritative, complete, AND THE ONLY CONDENSED classic world history—of which over 2,000,000 copies have been sold in France alone—just what has taken place in the inner councils of Europe during the past one hundred years. Read in these entrancing pages how Russia has for years craftily been trying to escape from her darkness—to get a year-round open port, with its economic freedom. Read how Germany and Austria, fearful of the monster's latent strength, have been trying to checkmate her and how they have pinned all in this last, supreme stake.

#### The Lesson of the Past

THIS master of the pen shows you the glory that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades, through the Renaissance up to contemporary history, which Prof. Grousset completes in brilliant manner. In the story of the past lie the secrets of today. And you will understand them better when you get the Review of Reviews for a year—for the Review of Reviews will give you a sane interpretation of the events that are taking place with such rapidity. It is not enough to read the daily news reports. Your ability to comprehend conditions, and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos—and the Review of Reviews will do it for you.

### "UNITED WE STAND, DIVIDED WE FALL."

Our friends the Republicans were very much perturbed over the cartoon recently published in the Louisville Times, with the above motto and Wilson and Stanley clasping hands, while a rooster stood between them crowing. It gave a most excellent idea for a campaign button. The Republicans swore loud and long at the bringing of Wilson's name into this campaign.

Well, why not? Doesn't the Presidential election follow right on the heels of this one?

Wouldn't it be an untold advantage to the cause of Democracy throughout the nation if Stanley's majority could reach a high water mark? Wouldn't it cheer up many a Democrat with the belief that it meant four years more of Wilson and Democratic supremacy? Wouldn't it enable the party of the people, of the masses, to demonstrate the fact that the great works enacted by the Washington government under the supervision of the Democratic party had caused untold relief and created a stability in all channels of trade that no other party had ever before given to the people?

You bet it would. So elect Stanley first so as to start the ball rolling in the right direction.

### ALUMINUM THE MOST ABUNDANT METAL.

Aluminum the most abundant of all the metals. In the form of its oxide, alumina, it constitutes about 15 per cent of the earth's crust, according to the United States Geological Survey. Yet until recent years it was a curiosity; there were only a few hundred or few thousand pounds in existence, and its value was \$14 or \$15 a pound. Within a generation it has become very useful, now selling at about 20 cents a pound. The entry of aluminum into the field of useful metals came with the discovery that it could be extracted from the mineral bauxite, a claylike substance. This mineral itself is by no means plentiful, but known deposits are sufficient to make aluminum an important competitor of certain metals, such as copper per and tin, in a good many lines of work.

Already aluminum has displaced steel in certain classes of construction where strength is required in combination with the extreme lightness, such as in the manufacture of flying machines. An alloy known as duralumin, containing about 95 per cent of aluminum, is claimed to have qualities as good as those of good Bessemer steel, although it is only one-third as heavy. This alloy possesses great hardness when annealed, and its melting point is above 1,200 degrees F. The great future of aluminum lies in the perfection of a process whereby it can be commercially extracted from the unlimited deposits of alumina—rich clays and rocks, which exist in all parts of the world. The day which shall yield really cheap aluminum holds out boundless possibilities. The chemist or investigator who can devise the needed process of extraction will not be forgotten by succeeding generations.

### TWO GIRLS MAKE RECORD FOR RAISING TOMATOES.

Mrs. Eloise Graves in charge of the girls' canning clubs for Christian county, has made her report which shows an unusually deep interest taken in this work by the girls this year and some wonderful results attained.

Especially so was the work of two girls in raising tomatoes. Part of the girls' canning club plan is to cultivate one tenth of an acre in tomatoes.

On this small plot of ground Emma Gee raised 7,042 pounds of tomatoes, of which 275 weighed a pound or more each. From her crop she canned 610 quarts.

Ruth Proctor, on her tenth of an acre, produced 3,470 pounds of tomatoes from which she canned 480 quarts.

### WHY THE CONFED-

### ERATES ARE "SPRY."

Those who have seen the ex-Confederates of this territory now in reunion at Memphis are struck by the "spryness" of the old soldiers.

It is 50 years and a little more since the guns of the Confederacy began to be forever silent. Fifty years is a long time. It is more than the average life of man. Fifty years ago the veterans who are now briskly walking about the streets of Memphis, were in the floodtide of youth. Many of them had served four hard years. They had frozen in the winter and had suffered from the heat in summer. During these four years their rations were never bounteous and not regular. Now and then they lived upon the fat of the land, but the time between "now" and "then" was long.

During the last year of the war they were constantly on short commons. They had few medical supplies and few clothes. After the terrible battle of Nashville, near Christmas time in 1864, the shattered remnants of Hood's army marched through ice and snow into North Alabama, and it is said that many of the soldiers were shoeless and half of them were not comfortably shod.

The Confederate soldier today is more youthful than his Federal adversary. A northern gentleman stated that the veterans gathered in the Grand Army parades were more feeble in appearance than were the ex-Confederates he saw in Memphis. In campaigning the Confederate soldiers fought as did the Spartans. Their meagerness of supplies, maybe, added to their long life.

A soldier once stated to the writer that the soldiers of the Confederacy fought on the best rations in the world—cornbread and fresh beef.

The Federal soldier was heavily fed. He had the fullness of the earth at his command. He also lived well after the war. Within 10 years after the war half of the Federal soldiers were on the pension list, within 20 years two-thirds were on the pension list, and within 30 years four-fifths were on the pension list. The pension was sufficient to enable the poorest of them to get along by doing only a little work. Not having to work hard they got fat. Fat-

ness is not conducive to long life. Neither is lack of exercise.

The closing of the war did not mean the end of the battle with the ex-Confederate. He came home and fought for a livelihood. He had to hustle six days and sometimes seven days in the week. No pension came to him in those days. Three-fourths of them returned to the fields, and for 20 years plowed and sowed and reaped and harvested. Their work was in the open. Most of them lived in the country, away from large cities. Having become rugged they were impervious to germs of tuberculosis, pneumonia and the like.

Their days are long in the land, because during the war, they were temperate in their use of food from necessity, and after the war they were temperate in the peaceful lines of life they followed, and they spent much of their time out of doors.

In the language of the distinguished breakfast food maker, for the healthy appearance of the Confederate soldier around 70 years—there's a reason.—Commercial Appeal.

### Russ Villages Ruled by Fair Sex.

In Russia a community of seven villages with long names is entirely ruled by women. Each village possesses a mayoress, and the offices of magistrate and policeman and postmaster—in fact every administrative post, are also filled by the gentler sex. Some fifty years ago a bad epidemic occurred, and the men made such a muddle of affairs, and behaved so badly that the women took over the government to save themselves from starvation. So successful were they that they have continued to direct affairs ever since.

### A Pine Whooping Cough Remedy.

Mothers, Dr. Bell's Pine-Tar-Honey is just the remedy for your children's cold ailments. The fact is that pine is a quick enemy of cold conditions. Its qualities loosen the mucus in the throat, soothe the lungs and open up the air passages. The combination of honey, soothing and pleasant, with the loosening pine quality makes this an ideal cough remedy for children. Each passing year brings for it, new friends. A family of growing children cannot afford to be without it. 25c. a bottle.—Advertisement.

New Orleans, Oct. 13.—The Rev. Byron Holley, rector of St. George's Episcopal church, one of the most fashionable congregations in the city, early Monday shot and killed Lansing Pearsall aged 22, son of a prominent railroad man here. Dr. Holley told the police he shot Pearsall thinking he was a burglar. He was found in the house at 5:30 a. m., and when asked what he was doing did not answer and the preacher says he made a motion as if to draw a weapon. Police were notified and found a widow up. No reason for the young man's presence in the rectory could be given by his parents or friends.

### REVIVAL DEEPENS.

A splendid crowd assembled at the Christian church Tuesday night. The revival spirit was evident on every hand. The singing was more spirited. The prayers more fervent. The pastor preached a stirring sermon on, "Your Own Salvation." No man desires to be lost, was his opening statement. He said he wanted to set three or four simple, self-evident truths in the forefront of the sermon. That was one of them. No man desires to be lost. On the other hand no man need be lost. No man has a right to throw away either his life or his soul. No man can reasonably hope to be saved who does not put forth some effort to be saved. Salvation should be a matter of the deepest solicitude. Man and God unite—strike hands—in the work of human redemption and salvation from sin.

Salvation is primarily and necessarily a work of divine grace. Salvation was begun, is carried forward and will be gloriously consummated by God alone. God took the initiative. God loved. Man's part is to come and accept the salvation that God has provided. How is he come? He is to come in conscious need; not in self-sufficiency; like the three thousand on the day of pentecost. He is to come led by faith in Him. He is to come putting away sin and all that stands opposed to God. He is to come making public confession of Jesus. He is to come ready to be baptized into the name of the Father and the Son and the Holy Spirit.

When the appeal was made one person united with the church, making nine since the meeting began. In the solemn quiet of the closing moments Mr. and Mrs. Harding sang, "You're going away unsaved tonight." The benediction was pronounced as the congregation sat with bowed heads and hearts.

Last night the pastor's sermon was, "Save yourselves from this crooked generation." Mr. Harding sang. The junior chorus meets every afternoon at three. The children will sing tomorrow night. The chalk talks by Mrs. Harding are very interesting and instructive.

### AVIATOR TALIAFERRO FALLS THOUSAND FEET

Drops Into San Diego Bay. Body Has Not Yet Been Found.

San Diego, Cal. Oct. 12.—Lieut. Walter D. Talliferro, stationed at the United States army aviation corps school at North Island, fell 1,000 feet into the San Diego bay today and was killed. His body has not yet been recovered.

Talliferro ascended from the army hangars on North Island early today and had been almost continuously in the air, when about 11:30 o'clock his machine suddenly became unmanageable and fell into San Diego bay about a quarter of a mile from shore. After an hour's search no trace of the aeroplane or of Talliferro's body had been found.

### Princeton Presbytery.

The Princeton Presbytery of the Cumberland Presbyterian church met with the Sharon church at Benningtown, Ky., Oct. 5, 1915. Rev. C. T. Boucher, the retiring Moderator, preached the opening sermon. Rev. W. T. Oakley was elected Moderator. Rev. Hugh Watson preached the sacramental sermon. Rev. J. B. Eshman preached a sermon on "A Call to the Ministry," on Wednesday at 11 o'clock. One young man, G. F. Carter, from Liberty church was received under the care of the Presbytery. Thursday was taken up in hearing the report of the various committees and in discussion of same. On Thursday evening at 7:30, Rev. T. C. Newman preached a strong sermon on "Christian Baptism." W. H. Wallace was licensed to preach.

Although we had a small representation, we had one of the best Presbyteries we have ever had. The good people of Benningtown opened their doors to us in a way that made us feel that we would like to go back. Presbytery meets at Fredonia next spring.

H. N. LAMB, Clerk.

### Every Woman Should Know

There are three entirely different kinds of baking powder, namely:

- (1) Cream of tartar, derived from grapes;
- (2) Alum, a mineral acid; and
- (3) Phosphate of Lime.

(1) Baking Powders made of Cream of Tartar add to the food the same healthful qualities that exist in the ripe grapes from which Cream of Tartar is derived.

(2) Baking Powders made of Alum add to the food some form of Alum or Aluminum, a heavy metal, wholly foreign to any natural article of food.

(3) Phosphate of Lime is made from rock or by burning bones which by chemical action are changed into a white, powdered acid. It is used in baking powder only because it is a cheaper substitute.

A Cream of Tartar powder never contains Alum or Phosphate.

Every housekeeper should read the names of the ingredients printed on the label and know what she is using.

### Chicago Saloons Closed.

Chicago, Oct. 11.—Saloons, hotels and restaurant bars were closed here yesterday for the first Sunday in forty-four years, through an order by Mayor Thompson for the police to enforce a state law which had been ignored so long as almost to have been forgotten. The 7,152 saloons have been regulated under a city ordinance, which required only that they be closed between 1 and 5 o'clock in the morning.

### Targets on Golgotha.

Paris, Oct. 13.—The Turks have transformed the Holy Land into a huge military training camp, according to refugees who have arrived at Alexandria. All the convents in Jerusalem are now barracks, and thousands of recruits daily are drilled on the Mount of Olives and Samaria plain by German officers. Immense targets have been placed on Mount Golgotha, the spot where the crucifixion took place, to serve in artillery practice to test the effect of high explosives.

Ernest Howey of Balsam Lake, Wis., was struck by lightning the other day just as he bent to kiss his infant son.
